Interviewer: Within the household, it is your job is to select a random (this means any) individual. This individual becomes the interview respondent. In addition, you are responsible for alternating interviews between men and women.

Circle the correct code number below.

Gender of respondent : Female	1	Male	2
-------------------------------	---	------	---

Selection of respondent

Within households, the interviewee selection shall be made randomly among all the persons of the household who are at least 18 years old. Each researcher must alternate interviews between males and females. To choose a person who must be at least 18 years old randomly, you must draw up the list of all the men (Or all the women in the case where the previous interview was made with a man) while respecting the age criterion in the column provided starting with oldest to the youngest. Draw a horizontal line across the youngest listed person and link with the last digit on the questionnaire. Then draw a vertical line and circle the number where the lines intersect. The circled number from the list represents the respondent eligible for the interview.

INTRODUCTION

Hello. My name is _____. I am from WANEP. We are undertaking a national survey of crime and violence for an independent research. Everyone would like to see your area and your country become a safer place in which to work and live. For this, information is required on your views. May I ask you a few questions on your experiences of crime? This interview will take about 30 to 40 minutes to complete. Your answers will, of course, be treated confidentially and anonymously. The point is to get a complete picture of the crime situation and to assist decision makers to develop practical strategies to combat crime. Please would you respond as honestly as possible to the following questions about crime in your area?
